

BEULAH MERCY A

Data Analyst | Business Intelligence Analyst | Python Development
abeulahmercy@gmail.com | +91 6382778177 | Chennai, Tamil Nadu | [LinkedIn](#)

PROFESSIONAL SUMMARY

Motivated and detail-oriented Data Analyst fresher with a strong foundation in Artificial Intelligence and Data Science. Proficient in Python, SQL, Power BI, and Excel with hands-on experience in data analysis, visualization, and AI-based projects. Skilled in problem-solving, analytical thinking, and transforming data into meaningful insights for decision-making. Eager to contribute to organizational growth through data-driven solutions and continuous learning.

TECHNICAL SKILLS

Programming Skill: Python, MySQL, Pandas, NumPy, Matplotlib, Seaborn

Data Visualization & BI Tools: Power BI, Excel

Databases: SQL (Joins, Aggregations, Queries)

Other Tools: AI Tools

PROJECTS

AI-Powered Smart Attendance System Using Face Analytics

Python, OpenCV, Face Recognition, AI, Machine Learning

- Developed an automated attendance system using facial recognition and AI-based face analytics.
- Implemented real-time face detection and attendance logging using Python and OpenCV.
- Reduced manual attendance tracking efforts through automation.
- Improved accuracy and efficiency in attendance management and reporting.

Power BI Dashboard — Bread Nutrition Analysis

Power BI, DAX, Power Query

- Engineered an interactive dashboard analyzing 50+ bread products using Power Query for automated ETL and DAX for dynamic KPI measures, cutting manual analysis time by ~60%.
- Delivered actionable insights across nutrition profiles, pricing tiers, and ingredient comparisons — enabling faster product benchmarking decisions.

Educational Infrastructure Enhancement Software

Python, Database Management, UI Design

- Designed software solutions to improve educational connectivity in rural areas.
- Focused on accessibility, efficient information sharing, and user-friendly functionality.
- Enhanced communication between students, teachers, and institutions through digital solutions.
- Worked on creating a simple and effective interface for better usability.

Detection of Fake Social Media Accounts

Python, Data Analysis, Machine Learning, SQL

- Developed a system to identify fake and fraudulent social media profiles.
- Applied data analysis techniques to improve fake account detection accuracy.
- Analyzed user behavior patterns and account activities for classification.
- Contributed to improving online security and social media authenticity.

EXPERIENCE

Intern – Pyroferous Technology

Feb 2024 – Mar 2024

- Gained hands-on experience in software development methodologies and collaborative project environments.
- Worked on real-world projects to enhance problem-solving and coding skills.
- Improved understanding of application development and practical implementation of technical concepts.

EDUCATION

B.Tech — Artificial Intelligence & Data Science · CGPA: 9.0 / 10

2022 – 2026

Dhaanish Ahmed College of Engineering, Chennai (Anna University affiliated)

CERTIFICATIONS & AWARDS

- Data Science and Artificial Intelligence** - Mind Bluster
- Ethics and AI** - University of Helsinki
- Joy of Computing Using Python** - NPTEL
- Big Data Computing** - NPTEL
