

BEULAH MERCY A

Data Analyst | Business Analyst | Python | AI & Data Science Graduate

abeulahmercy@gmail.com | +91 6382778177 | Chennai, Tamil Nadu | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

AI & Data Science graduate with hands-on expertise in Python, SQL, Power BI, and Excel, focused on transforming raw data into clear, actionable insights. Experienced in data cleaning, exploratory analysis, visualization, and AI-driven projects, with a strong ability to identify patterns and solve business problems using data. Seeking to contribute analytical and technical skills to build data-driven solutions and support informed business decisions.

TECHNICAL SKILLS

Programming	: Python, SQL
Databases	: MySQL
Data Analysis	: Excel, Power Query, Pandas, NumPy
Data Visualization	: Power BI, Matplotlib, Seaborn
Data Analytics	: Data Cleaning, Exploratory Data Analysis (EDA), Data Transformation, Statistical Analysis
SQL Concepts	: Joins, Aggregations, Subqueries, Filtering, Grouping

PROJECTS

AI-Powered Smart Attendance System Using Face Analytics

Python, OpenCV, Face Recognition, AI, Machine Learning

- Developed an automated attendance system using facial recognition and real-time face detection to streamline attendance tracking.
- Implemented attendance logging and automated record management using Python and OpenCV, reducing manual attendance efforts.
- Improved the efficiency and accuracy of attendance tracking and reporting through automation.

Power BI Dashboard — Bread Nutrition Analysis

Power BI, DAX, Power Query, Excel

- Built an interactive Power BI dashboard to analyze 50+ bread products, using Power Query for data cleaning, transformation, and automated ETL workflows.
- Developed DAX measures and KPI visualizations to compare nutritional profiles, pricing, and ingredients, enabling faster data analysis and product comparison.
- Generated actionable insights for product comparison, nutritional benchmarking, and decision-making

Power BI Dashboard — Attendance Analysis

Power BI, Power Query, DAX, Excel

- Built an interactive Power BI dashboard to analyze employee attendance trends, absenteeism, and manager-wise performance.
- Used Power Query for data cleaning, transformation, and preparation, and DAX to create calculated measures and KPIs.
- Created interactive charts, filters, and KPI visualizations to improve attendance reporting and support data-driven workforce decisions.

EXPERIENCE

BESANT TECHNOLOGIES

Data Analytics Intern – Worked on data pre-processing, data cleaning, visualization and reporting using real-world datasets. Analyzed data using Python, SQL, and Excel to identify patterns, trends, and actionable insights. Created interactive dashboards in Power BI to effectively present findings and support data-driven decision-making.

EDUCATION

B.Tech — Artificial Intelligence & Data Science · CGPA: 8.88 / 10 | Classification : First Class with Distinction 2022 – 2026
Dhaanish Ahmed College of Engineering, Chennai (Anna University affiliated)

CERTIFICATIONS & AWARDS

- **Data Science and Artificial Intelligence** - Mind Bluster
- **Ethics and AI** - University of Helsinki
- **Joy of Computing Using Python** - NPTEL
- **Big Data Computing** - NPTEL
